FRIDAY, MARCH 21.

THE Legislature died Tuesday night. No craze is hung out; no flags are at half-mast.

A young man from this county visited the legislature, while in session, and noting the very extravagant attention paid the young members of that body by the Frankfort ladies, is almost a candidate for Representative.

Mr. Cecil Rhodes, the Cape Colony diamond king, is dangerously sick at Cape Town, and has at best but a few days to live. It was for the protection of Mr. Rhodes' rich holdings of diamond mines in the Transvaal that the British made war on the Boers.

THE Louisville Commercial of Friday has the following to say of our Representative:

One of the most important bills passed by the house is Mr. Bennett's two weeks pay bill. It is a bill that will require every two weeks of every month, as now the custom. Mr. Bennett is a Republican member from Ohio county, and deserves great credit for his victory in the house. The bill is yet to be considered in the senate.

THE late legislature deserves most credit for failing to do some things it essayed to do. It accomplished less vicious legislation than its immediate predecessors, but this is because it did less legislating. But the Miners Two Week's Pay Bill and the "blind tiger" bill may, in fairness, be placed to the credit of that body.

Oh, how fleeting is the fame of mortal man, we were reminded a few days ago by reading in a great daily newspaper, a sermon by Dr. Talmage. Ten years ago no metropolitan newspaper was considered complete that did not contain, from time to time, Dr. Talmage's Sunday sermon, but now this great divine is almost forgotten by the populace.

The local Democratic organ here gravely informs us that if the Commonwealth's Attorney gets beastly drunk, and is not able to be in the court house for a week at a time, while Circuit Court is in session, that the item is not news. May be it isn't. We are fresh in journalism, and perhaps we don't know news when we see it wallowing in the mud; but we thought that, perchance, the people who elected the Commonwealth's Attorney might be interested in knowing whether or not he was at his post, and if not, the reason why. Some folks are curious, you know.

Upon the sworn testimony of an eye-witness that Frank Cecil played a game of cards in the Secretary of State's office about the last of January, 1900, a Franklin county grand jury has returned an indictment against him for killing Senator Goebel. Of course Cecil is guilty. Any Republican who may have played cards in the Secretary of State's office within sixty days after Goebel was killed, must necessarily have fired the fatal shot. Cecil should plead guilty and ask the acting Governor to fix an early date for the execution.

HON. A. S. BENNETT was the only Republican member of the late Legislature to secure the passage through both houses of a bill. Mr. Bennett's bill known as House Bill No. 135 compelling mine operators to pay their employees every two weeks, passed the Senate Monday. The passage of this bill has been demanded by the miners of the State for many years, and the miners will hail Mr. Bennett as their benefactor. In this act alone, he demonstrates his fitness for a popular Representative. We put in nomination the name of Hon. A. S. Bennett for Representative in 1903.

THE Hartford Herald, smarting under the sting of well deserved censure for failing to report the incapacity of its Commonwealth's Attorney to perform the duties of his office, seeks to retaliate by referring to a personal act of the editor of this paper, in becoming surety on the bond of a young man charged with crime. We might reply in kind, but out of respect for our readers, ourselves, and the profession, we must decline to prostitute our columns to this purpose. If we shall have, at any time, an unpardonable grievance against the editor of the Herald, we shall fight it out with him on the street, but under no circumstances will we bore our readers with a petty personal controversy with him.

SULPHUR SPRINGS, KY.
March 18.—Mr. J. B. Mitchell, who has been ill for some time is improving and will soon be out.
Mr. Geo. W. Allen, a former resident of this community, but who is now living in Indiana, made us a visit, and while here—concluding that it is not best for him to live alone—was married to Miss Adeline Nash, of Sulphur Springs, on the evening of the 14th, Rev. T. L. Acton officiating. They returned to Indiana where they will make their home. Our best wishes go with them.

It is reported that our hustling stock-buyer, Mr. F. T. Wilson, has bought the Rosine mill. If any one can make it pay he will.
Farmers are disheartened over the prospect for wheat. Two bushels per acre seems to be the average guess on the crop.

We note with pleasure the record of our Representative and believe he is doing the best in his power despite machinations oppose to the law and liberty loving element of Kentucky. If he will just pick that capitol up and move it to Louisville, he will deserve and secure praise from Kentuckians.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offered one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by druggists, 75c.
Hall's Family Pills are the best.

ROSINE, KY.
March 18.—Farmers are busy burning and sowing plant beds. On account of the wet weather the farmers have not sown any oats yet. The wheat crop looks very slim in this county.

Elder H. D. Burch filled his regular appointment at Cane Run last Saturday and Sunday.
Rev. Cort B. Coleman will preach at Cane Run Saturday night, Sunday and Sunday night.
Mr. John Camp will have his house completed in a few days and will move into same.
Mrs. Amanda Camp is very low with the mumps.
Mr. Anderson Johnson, who has been very low with consumption, is thought to be improving.
Mr. Sam M. Wilson, who has been sick for several days of la grippe, is better.

La Grippe Quickly Cured.
"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe," says F. L. Hewett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by all druggists.

Who's Who?
Several years ago Salem Bennett, a widower, of Weston, Va., married Miss Abbie Smith, the daughter of a widow. Last week Bennett's son, Markwood Bennett, married the widow who is the mother of his father's wife. By the marriage Markwood Bennett becomes his own father's father-in-law, and his own grandfather-in-law. Mrs. Markwood Bennett becomes the daughter-in-law of her own daughter, which is to say, she is her own granddaughter. Markwood's wife is Salem's daughter-in-law as well as his own mother-in-law, while Salem is both the father and son-in-law to his own mother, and is her own grandmother. If she has any children she will be both mother and grandmother to them, and they will be both brother Markwood's grand children. Markwood is not only his own grandfather, but is the grand father of his brother and sister, and if children are born to him he will be their great-grandfather as well as their father. Should children be born to both Salem and Markwood Bennett, the parents will probably take a week off to figure out the relationship between the babies.

Both Couldn't Marry Her.
Glasgow, Mar. 16.—The officers here were notified to arrest Dick Nichols, who was wanted at Beaver Dam, Ohio county. Nichols and M. H. Stephens were both suitors for Miss Ora Peda's hand. Stephens won and last night Nichols tried to break into Stephens' house. Today they met, and a shooting scrape followed, and Nichols fled. This is Nichols' second trip from here to Beaver Dam to kill Stephens.

Rev. Pate Appointed.
Representative F. B. Brown wrote to a friend and prominent citizen that he could secure the position of chaplain of the Eddyville penitentiary for Rev. E. E. Pate, the Methodist circuit rider living here, if that reverend gentleman desired the place. Mr. Pate was consulted and agreed to accept. Representative Brown was present yesterday by wire and we presume Rev. Pate will get the appointment. The place pays a salary of \$1,200 a year.—Morganfield Sun.

How to Cure the Grip.
Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy contracts any tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip, not one case has ever been reported that did not recover. For sale by all druggists.

RENDER, KY.
Mar. 18.—Mr. J. D. Reid, of Render, went to Beaver last Sunday to visit his brothers, John and Charles Reid.

Mr. Wilson Russell was in Rockport last week on business.
Mrs. Jas. L. Rowe and little daughter, Virginia, who have been visiting relatives in Leitchfield for the past two weeks, returned home Sunday.
Mr. L. F. Rowe visited friends in Rockport last Sunday.
Mr. Louis Magan was in Beaver Dam Sunday.
There was a wedding here last week.

The coal operators and miners delegates for the U. M. W. of A., who have been in convention for several days at Owensboro, have adjourned to meet at Central City the 24th. It is thought by all that the coal miners of District No. 23, Western Kentucky, will receive an advance of wages, the Indianapolis scale, or stand a long strike.

SELECT, KY.
Mar. 17.—Master Cecil Stewart, son of Mr. A. H. Stewart, of this place, died the 13th inst., and was buried the 14th.
Mr. Grant Young has gone to Nashville, Tenn., where he expects to make his future home.
Mrs. J. A. King has gone to Grayson county to visit her mother, Mrs. Press Bratcher.
Mr. Will Bradley and wife, Butler county, visited friends and relatives here Saturday and Sunday.
Mr. Jo Jarragin and wife in McLean county.
Mr. F. Elden Balz will move into our midst in a few days.

Pneumonia can be Prevented.
This disease always results from a cold or an attack of the grip and may be prevented by the timely use of Chamberlain's Cough Remedy. This remedy was extensively used during the epidemics of la grippe of the past few years, and not a single case has ever been reported that did not recover or that resulted in pneumonia, which shows it to be a certain preventive of that dangerous disease. For sale by all druggists.

Divorce Case Makes Record.
New York, Mar. 18.—Mary Isabelle Zane was married to William Northrop Cowles at the residence of the bride's uncle, Dr. Edward L. Keyes, East Seventy-fourth St., on the afternoon of Thursday, Dec. 12, 1901. On Jan. 6, 1902, just twenty-eight days after the wedding, Mrs. Cowles' suit for divorce from her husband was released by Justice Blanchard to Ewing was brought out this afternoon before Judge Stephens for his examining trial. He waived examination and was sent back to jail without bond to await the action of the grand jury. When Ewing was put in jail last night he attempted to play crazy, but he was all right today. The authorities are confident they have one of Owen's murderers, if there were more than one, and if there was but one, they think they have the right man.—Owensboro Enquirer.

Dr. Miles' Nervine
Saved me from the insane asylum, Mrs. A. M. Heller, of Jerico Springs, Mo., writes. "I was so nervous that I could scarcely control myself, could not sleep or rest, would even forget the names of my own children. I commenced using Dr. Miles' Nervine and it helped me from the first, and now I am perfectly well."

Ancient Heirloom.
FORDSVILLE, Mar. 17.
Editor REPUBLICAN, Hartford, Ky.—Dear Sir: I see in your Beda letter of the 17th ult., an account of an iron spoon, brought to America in the year 1725, which is indeed a great relic of the early settlers of the Western Continent. Were it not by a request of your Beda correspondent, I should not have written up an old relic I inherited, as I have no desire to outdo "Zida," but to tell the citizens of Ohio county something about the old relics in the county which our ancestors have left us.

I now have in good preservation a horn spoon—table size—which, if we believe tradition, can be traced back 313 years and then it was an old relic in Scotland. It is one of the first things I recollect of playing with at my home in Fulton county, N. Y., about the winter of 1843 or 1844 and there are now the impressions on its handle of our little infant teeth, and other little children that played with it before me. I have often heard my parents tell the following account of its history and age:
My grandfather Forbes was an officer in the war of 1812 and during the time he was in the army—as his wife was dead—he left my father in the care of a Scotch friend by the name of Alexander Morehead, my father at that time being a small child. Mr. Morehead, who had no children, made the child a present of this spoon and afterwards told him it was a present to him by a gentleman in Scotland when he was a small child, and he afterwards learned that it was then an old relic.

In the year 1834 my mother, whose home was in Cincinnati, visited me her last time, and while at my home she told me that at that time the spoon was known to be 295 years old, which was no doubt so, if reliable tradition can be believed. In dividing the family relics the "old horn spoon" fell to me also eight sea shells brought from the whaling, sea islands by my grandfather, Capt. Wm. Perry of the Nantucket Whaleship, John Adams, about 125 years ago, which, with the old spoon, can now be seen at my home near Fordsville, Ky.

Arrested for Murder.
James Ewing, of McLean county, was arrested Tuesday for the murder of Derrell Owen, and if he is not guilty it is pretty certain that he knows all about it. He is in jail at Calhoun.
Ewing was arrested by Alex Jones, who runs a store boat on Green river. Ewing had been looting around his boat for some time. He had money, which he had not worked for, as he was not known to have worked for some time, and then but little. Jones accused him of the murder and Ewing denied killing Owen but said he knew all about it. When Jones told him he was going to take him to Calhoun Ewing said he would go and did so.
Owen was killed several weeks ago on a shanty-boat just across Rough river from Livermore. The murder occurred in the night and the body was not found until 9 o'clock the next day. Owen had been shot and his head had been crushed with a club. The object of the deed was robbery, as the dead man's pockets had been rifled and the things on the boat had been overturned in the search for money. It is believed that there were three men engaged in the crime.
Ewing was brought out this afternoon before Judge Stephens for his examining trial. He waived examination and was sent back to jail without bond to await the action of the grand jury. When Ewing was put in jail last night he attempted to play crazy, but he was all right today. The authorities are confident they have one of Owen's murderers, if there were more than one, and if there was but one, they think they have the right man.—Owensboro Enquirer.

COUGHED UP A TOOTH.
Columbus, Ohio, Mar. 18.—R. C. Davis, aged 69, who lives in Hayden avenue, this city, has just performed the astonishing and hitherto unprecedented feat of recovering his long lost voice by the simple process of coughing up a tooth.
About eighteen years ago he began to have trouble with his throat, which continued uninterruptedly until last Sunday morning.
Until he first experienced this trouble eighteen years ago he was an accomplished bass singer and attained considerable reputation in Indianapolis, where he was previously lived, as a basso in church choirs. Suddenly he discovered that there was something the matter with his throat, which put an end to his singing. Since then he has been treated for asthma, catarrh and all manner of throat trouble without obtaining any relief. For eighteen years he has almost constantly suffered from wheezing and coughing Sunday morning relief came in this unexpected manner.
The theory is that the piece of tooth, which was his own, slipped down his throat eighteen years ago and lodged in the esophagus, just below the larynx. It formed a pocket in that position and remained there without materially affecting his ability to swallow food, but produced great irritation to the laryngeal nerves.

REYNOLDS, KY.
March 17.—The weather is getting good and farmers are cheerful. There has been no work done on the farm this winter. Roads are very bad.
Several from this place attended church at Haynesville Sunday.
Messrs. Late Knott and F. M. Reynolds returned from Hartford Saturday, where they had been attending court for two weeks.
Miss Hettie Reynolds returned from Louisville Friday with her spring stock of millinery. She will run the millinery department for Mr. G. B.

BEAVER DAM, KY.
The school tax was voted last Saturday by our citizens by two to one, and a board of six most reputable gentlemen were chosen as trustees of our graded school.
Rev. Coakley met a large congregation in the Baptist church here last Sunday, where the Sun'ay School was reported to be in a prosperous condition, when the congregation and school heard a most excellent exposition of the Parable of the Sower.
On the fifth Sunday in this month, and Saturday before, Herbert Maddox, a late graduate of Bethel College, will be ordained to the full work of the ministry at West Providence Baptist church in this county. J. S. C.

Eczema, Psoriasis, Salt Rheum, Tetter and Acne

Belong to that class of inflammatory and disfiguring skin eruptions that cause more genuine bodily discomfort and worry than all other known diseases. The impurities or sediments which collect in the system because of poor digestion, inactive kidneys and other organs of elimination are taken up by the blood, saturating the system with acid poisons and fluids that ooze out through the glands and pores of the skin, producing an indescribable itching and burning, and the yellow, watery discharge forms into crusts and sores or little brown and white scales that drop off, leaving the skin tender and raw. The effect of the poison may cause the skin to crack and bleed, or give it a scaly, fishy appearance; again the eruptions may consist of innumerable blackheads and pimples or hard, red bumps upon the face. Purification of the blood is the only remedy for these various skin diseases. Washes and powders can only hide for a time the glaring blemishes. S. S. S. eradicates all poisonous accumulations, antiseptics the Uric and other acids, and restores the blood to its wonted purity, and stimulates and revitalizes the sluggish organs, and the impurities pass off through the natural channels and relieve the skin. S. S. S. is the only guaranteed purely vegetable blood purifier. It contains no Arsenic, Potash or other harmful mineral. Write us about your case and our physicians will advise without charge. We have a handsomely illustrated book on skin diseases, which will be sent free to all who wish it. **THE SWIFT SPECIFIC CO., Atlanta, Ga.**

Superintendent Jas. DeWeese and

HE FEARED HE HAD LOST

When Wu Ting Fang, the famous Chi-
nese Minister to Washington, irritable
and somewhat forgetful from a severe
cold, missed one day from the front of his cap
the immense diamond he always wears there,
he was dreadfully frightened. A friend
pointed out that the stationer had inad-
vertently dropped his turban wrong side
before, and that the diamond was safe in
the rear. Had Wu Ting Fang been wear-
ing a Benson's Perous Plaster on his chest
or back to cure his cold, he never would
have doubted its location. He would have
felt it doing its work,—warming and mak-
ing flexible the torpid muscles, extracting
the pain and soreness, promoting the free
circulation of the blood, stimulating the
skin and lungs to proper action, and so
disinfecting and banishing the maldy. Thus
we perceive, beloved friends, that

THE BIG DIAMOND ON HIS HAT

while a pretty thing to look upon, was of
no practical use. But Benson's Plaster
is supremely useful. They relieve and
cure gout, rheumatism, neuralgia, colds
on the chest, lambs back, etc., so quickly
and make you wonder to make you wonder
how it can be. Better now,—well to-morrow;
that's the way they work. Get the genu-

A precocious young Ohio county
man, who has seen much of the
world, and had a varied experience
—including a divorce—for one so young,
was paying court, recently, to a
wealthy young lady of an Eastern
city who, on an untimely postal card
played havoc with his plans. The
young man had occasion to be absent
from the aforesaid Eastern city for a
few days and very naturally asked his
sweetheart to receive and care for his
mail during his absence. In the
meantime the precocious one had
been granted a decree of divorce by
the Ohio Circuit Court, and his attor-
ney incautiously notified him of the
fact by postal card which the wealthy
young lady in a cold and informal
way presented to him upon his re-
turn. Notices of divorce like duns
should be legislated off of postal
cards.

Nothing Tastes Good

And eating is simply perfunctory—
done because it must be.

This is the common complaint of
the dyspeptic.

If eating sparingly would cure dys-
pepsia, few would suffer from it long.

The only way to cure dyspepsia,
which is difficult digestion, is to give
vigor and tone to the stomach and the
whole digestive system.

Hood's Sarsaparilla cured the niece of
Frank Fay, 156 N. St., South Boston, Mass.,
who writes that she had been a great sufferer
from dyspepsia for six years; had been with-
out appetite and had been troubled with sour
stomach and headache. She had tried many
other medicines in vain. Two bottles of
Hood's Sarsaparilla made her well.

JAKE INDICTED.

**Grand Jury Calls Commonwealth
Attorney to Account for
Drunkenness While
on Duty.**

The recent grand jury demon-
strated its fitness to serve the purpose for
which the law contemplates its exist-
ence by work exemplifying the high-
est moral courage and the wisest dis-
cretion. The criminal neglect of duty
upon the part of the Commonwealth's
Attorney for some years past, has
been a notorious fact, yet not until
the recent term of court have we had
a grand jury in the Ohio Circuit
Court with courage enough to find an
indictment against him.

At the recent term of court here,
Cap Davis was on trial charged with
the murder of Joseph Miller, near
Sulphur Springs, last spring, and it
is out of the conduct of Mr. Rowe
during this trial that the indictment
came about. The grand jury sum-
moned each of the twelve petit ju-
rors, who sat on the murder trial, to
testify before it, also a couple of attor-
neys of the Hartford bar, but by a
vote of seven to five failed to indict.
However, a couple of days later it
took up the case again and returned
the indictment.

Nothing may come of the indict-
ment, but it serves to express popular
sentiment in a very grave matter and
attests the courage and good sense of
the honest farmers who made up the
grand jury.

A Novel Case.

About the first of the present year,
M. H. Stevens, of Centertown, mar-
ried a Miss Pedan, of near Glasgow,
since which time Mr. Stevens and
wife have been living with his father.
Sometime ago, T. D. Nichols, a for-
mer lover of Miss Pedan, came upon
the scene and as the report goes
gave the newly wedded pair much
annoyance by appearing at the win-
dows of the Stevens' residence of
nights. Friday night, it is said,
Nichols went to Stevens' residence
and tried to break in through a win-
dow, when the elder Stevens fired on
him with a double-barrel shotgun, and
Nichols returned the fire.

Nichols was arrested by the Mar-
shal at Central City Monday and the
Sheriff of this county notified. Dep-
uty Sheriff Jno. G. Keown brought
Nichols over here Tuesday and lodged
him in jail.

We called on Nichols in the jail
yesterday and he gave us the follow-
ing statement of the incident:

My name is T. D. Nichols. I am
26 years old, and my home is Oleok,
Barren county, six miles southeast of
Glasgow on the Birkville road. Miss
Ora Belle Pedan and I had been en-
gaged nearly four years. M. H.
Stevens and Miss Pedan married and
left Oleok together on Tuesday be-
fore she and I were to have been mar-
ried on the Thursday following. It
was said up there that Stevens had
used unusual inducements to get the
girl to marry him, and believing he
would desert her, I decided, as I was
going to Evansville anyway, that I
would stop over and see about her,
and if she had been deserted by

CHAINED FOR TEN YEARS

There is nothing like Asthma. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. Wells, of Villa Ridge, Ill., says: "Your trial bottle of Asthma Cure has done for me what I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. Bnai Israel, New York, Jan. 3, 1901. Drs. Taft Bros' Medicine Co., Gentlemen: Your Asthma Cure is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma.

Avon Springs, N. Y., Feb. 4, 1901.

Dr. Taft Bros' Medicine Co. Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthma Cure, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I changed to see your sign upon your windows on 130th street, New York. I at once obtained a bottle of Asthma Cure. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma had disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHILIPS, M. D.

Dr. Taft Bros' Medicine Co. Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. F. A. WERNER, OF BALTIMORE, SAYS: "Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the deafness would be permanent. I then saw your advertisement, accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noise ceased, and today, after five weeks, my hearing in the deafened ear has been entirely restored. I think you have done a great deal for me. Very truly yours, F. A. WERNER, 730 S. Broadway, Baltimore, Md.

And is Looking for Outside Capital to Assist in the Development.

From East View, Ky., comes a man who wants money—other people's money—to invest in land productive of oil, coal, timber and asphalt. He and his friends have huge tracts of land leased in Grayson and Edmonson counties, and he needs financial assistance in working them properly. He believes that great returns will be shoehorned on investors.

The following letter from him was received recently by Secretary Van Pelt, of the Commercial club:

"J. C. Van Pelt, Secretary Commercial Club, Louisville, Ky.—Dear Sir: Knowing that you are very much interested in the development and progress of the State of Kentucky, as well as of your own city of Louisville, I take the liberty of addressing you in regard to an undeveloped section of this part of our state that is rich in oil, coal, timber and asphalt. Some friends and I have 3,000 acres of asphalt lands leased in Grayson and Edmonson counties. This land is on Nolin river, about ten miles above slack water.

"Our object is to operate and develop these lands, and we would like to have the assistance of the Commercial club in doing so. What we want is foreign capital to be invested with ours, so as to go to work in these rich fields. We have had our asphalt asayed by competent men, and pronounced by them to be first-class rock asphalt. Prof. Burk, of your city, has so pronounced it. Our leases are very liberal, and we would desire an opportunity of showing our territory before asking any one to put up a dollar for developing purposes. One place on Nolin river has cliffs forty feet high, and is rich in asphalt. Many others are equally rich and in great quantities. Besides the asphalt, oil is protruding from many places on the surface. Gen. S. D. Buckner, Dr. Walton and others have just begun boring an oil well very near our territory, with every prospect of success. We have other territory leased on Short creek, in Grayson county. I inclose you Col. Tilford's report of it.

"I will take pleasure in showing this territory to any who may wish to see it. Very respectfully, 'J. R. GAITHER, 'East View, Ky.'—Louisville Commercial.

POWERFUL MEN OF THE EAST

An Interesting Explanation of Their Unusual Strength.

The Secret of Their Marvellous Vitality and Nervous Force Jealously Guarded.

The fondest hopes of ancient or modern seafarers are the possession of perpetual youth, or, at least, of a life that is not so severely hampered by the ravages of time as the average man's. It is the desire of the human mind to know the secret of the youthful vigor of the men of the East, and the Court Physician, EL MOKBIR, has been practically unobtainable, excepting by the favored ones for whom it was intended.

Gradually compounded by the Women of the East, from formulas handed down orally from generation to generation, the secret of this preparation thus jealously guarded and known only to the inmates of the Harem and the Court Physicians, EL MOKBIR, has been practically unobtainable, excepting by the favored ones for whom it was intended.

Recently, however, a prominent Arab physician, banished from his country for political reasons, and deprived of his vast possessions, has revealed the secret of this knowledge, and has secured the formula of this preparation, and has been able to produce a powerful compound, EL MOKBIR, a reliable and healthful medicine for all ailments, and a healthful compound of all Europe, who have been able to put him large fees in return for the formula received.

Content with the large income derived from this practice, the aged physician has repeatedly refused very liberal offers made to him for the formula of his remedy, but he has finally agreed to sell the formula for the first time to the American public.

This remedy must not be confounded with the numerous nervous tonics, and is not a mere stimulant, but a powerful and healthful compound, and is not a mere stimulant, but a powerful and healthful compound, and is not a mere stimulant, but a powerful and healthful compound.

While it is an absolute specific and positively guaranteed to cure the worst cases of nervous debility, loss of memory, or similar weakness due to excessive or youthful errors. It is also used with the greatest success as a stimulant, giving power to all weak parts, and developing and maintaining the full natural vigor of manhood.

A WORTHY SUCCESSOR.

'Something New Under The Sun.'

All Doctors have tried to cure Catarrh by the use of powders, acids, gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which where actually used, not only relieves at once, but permanently cures Catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the affected parts. This wonderful remedy, known as "Snuffles the Guaranteed Catarrh Cure" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve Hay Fever or Cold in the Head.

Catarrh when neglected often leads to Consumption. "Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure."

public were very young of her. In fact, she was really a sort of uncrowned queen, and we know her by a title, although her husband, who was a staunch Republican, refused to be called a king. In her youthful days she lived on a plantation in Virginia, which was then a royal province. She came of a proud patrician family. When she married the great man I have mentioned she was a widow with two children, and the great man who never had any children, adopted them and loved them as his very own.

The story of the courtship is a beautiful one. While a guest at a neighbor's home he met a young man who was returning from the scene of Braddock's defeat, and whom he had with difficulty prevailed upon to remain to dinner, so eager was the young man to reach his destination. But no sooner had the soldier cast his eyes upon the charming girl than all desire to continue his journey had disappeared as if by magic. Hour after hour passed by, while for the first time he loitered in the path of duty, and his horse all saddled and bridled, neighed impatiently at the door.

But the lady had many suitors, you see, and he realized that he must improve the opportunity to the utmost. Before they separated he had received her promise to marry him. On the 6th of January, 1759, the marriage was celebrated in the good old hospitable style of Virginia, and proved a happy one. The young soldier became a great general, and after the colonies had freed themselves from the mother country, he and his wife were called to very high positions indeed. They are buried side by side just a few miles from the national capital. Should you ever visit it, you will make a pilgrimage to their tomb.—Boyce's Monthly.

Olored Folks.

"It is an ill wind that blows nobody any good," and yet the negro is made almost invariably to feel his condition thus, and so, has learned to look for few favors in this life, but to continue to strive for the elevation of his race and rely on that God that will do all things right. This was illustrated a few days ago, when a Pullman porter, Geo. W. Thurston, of New York, inherited a huge fortune estimated at \$75,000, from the late Mrs. Eliza Evans, a white lady, whom he had served. The will was contested, but was admitted to probate and Mr. Thurston will inherit the bulk of Mrs. Evans' estate, as a reward for his kindness and attention during her illness.

At the conference held at the Tuskegee Institute, the following declarations were adopted:

1. In connection with educational, moral and religious training, we recognize that the foundation and growth of our race are to be found in the ownership and proper cultivation of the soil; freedom from mortgaging land crops or stock; raising food supplies at home; keeping out of the large cities, North and South, prompt and willing payment of all taxes; keeping out of the courts; avoiding all forms of extravagance; keeping our

young people off of the streets, from public lounging places; starting a bank account, however small; holding farmers' institutes or local conferences and agricultural fairs.

2. We must keep constantly in mind that the masses of our people depend for their education upon the public schools. These should be strengthened at every point, especially lengthening the terms, securing better teachers, building schoolhouses and supplying them with proper outfits, etc.

3. We must not overlook the fact that we depend largely for our living upon the common occupations that are about our doors, domestic, mechanical and agricultural. Since, at present, especially in the South, these occupations are open to us, we should give careful attention to fitting our youths for these callings and constantly remind them that there is no disgrace to any form of manual labor.

4. We would advise the teaching of agriculture in the public schools, and through the children, would impress upon the parents the value of the dairy, vegetable garden and poultry yard to every family.

5. We recognize there is work to be done for the schools and public improvement, especially public roads. In promotion of this and every other good, we pledge our most hearty cooperation with our white friends, North and South.

7. We believe our progress in all the essentials of life, all things considered, is more encouraging and our motto should be, "never onward."

In each conference held we behold vast improvements and the outlook is more encouraging than ever before and everywhere, at least, only colored men can be found competent for some position of trust such as a deputyship, except in Ohio county.

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours. A sediment or getting indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so long as you know the cause of your trouble. The great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c and \$1. sizes.
